

Membership statistics

At the AGM held in March 2016, memberships were reported as:

- 53 Institutional
- 305 Individual

As at 3 March 2017, memberships have grown to:

- 84 Institutional
- 489 Individual

This shows an increase of 60%.

As conference attendance also includes a new subscription for non-members, we expect that individual memberships will increase by over 100 individuals.
