Reflecting on our day

What went well today?

What was challenging/ tricky today?

What did you learn today?

What strength did you use or spot today?

What are you grateful for today?

What do you want to do better tomorrow?

With a roll of the dice...

Preparing for our day

What do you want to do well today?

What can you do if you have a challenge today?

How can you be a flourishing learner today?

What strength can you grow today?

How can you be a better friend today?

What do you want to do better today than yesterday?
